In Re: Memorandum of Understanding
on Pot Creek

Dear Hugh:

Our records reflect that in the meeting of the water users of the Pot Creek Distribution System held in Vernal, Utah on March 15, 1972, Mr. William Mattern, my representative, presented to you a proposed new Memorandum of Understanding. As you probably will remember, this proposed Memorandum of Understanding has a limited number of changes; however, these changes are important to Colorado water users.

This letter is written to ask you if you have had an opportunity to review the Memorandum and if you have had this opportunity, what your feelings are concerning the same. I would like to get this matter resolved so that we can make some decision prior to the annual meeting.

If I can be of further assistance, please feel free to contact me or Mr. Mattern.

Very truly yours,

C. J. Kuiper

How does this new
agreement ~~the~~ vary from
the old one? Is the only
substantive change on the
period of use?

Have we been operating
w/ a single interstate
mission?
